Accessible Buses: Accessible buses now serve many regular TTC routes in Toronto. You will recognize an accessible bus stop by the international wheelchair symbol ♿ on the post. You can get on and off accessible buses at designated accessible stops.

Subway/RT Strip Maps

All TTC Surface routes (except route 99) connect with the Subway/RT system. Specific connections for all routes and branches of routes are shown on the Subway/RT Strip Maps to the right and below.

A pink background indicates a transfer is required to connect between Subway/RT and these routes.

A purple background indicates a GTA PASS or additional fare is required to connect between Subway/RT and these routes.

How To Read Bus Route Numbers and Notes

- \+ A '+' indicates that all branches run along that portion of the route. For example, 87+ indicates the presence of all branches: the 87, the 87A, the 87B.
- , A ',' separates each branch in a route box where only some of the branches follow that portion of the route. For example, 87,A indicates that the 87 and the 87A are present: the 87B is not. Alternatively, 87A,B indicates the presence of the 87A and the 87B, but not the 87.
- 87B A rectangular box indicates a route end point or a branch of a route end point.
- 87+ A pointed box is angled to show the direction of travel.
- 85E A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.
- 141 A yellow pointed box shows the direction of travel on Downtown Express routes, Routes 191, 192 and 196.
